Hi Bo,

Following up on our discussion of CommScope's motion to stay, CommScope is willing to agree, if a stay is a granted as to the six overlapping patents, as follows:

- For the six overlapping patents, CommScope agrees to be bound by any invalidity or validity rulings issued by Judge Andrews in Delaware.
- For the six overlapping patents, CommScope agrees to be bound by any infringement or non-infringement rulings issued by Judge Andrews in Delaware relating to the products accused of infringement in both Delaware and Texas (i.e., 5031NV, 5168N, 5168NV, and 5268AC).

CommScope's proposed agreement above is conditioned on the following:

- There is no agreement for CommScope to be bound by any rulings in Delaware if Judge Gilstrap denies CommScope's motion to stay.
- TQ Delta agrees that it shall not use any agreement by CommScope to be bound to the rulings in Delaware as part of any IPR proceedings initiated by CommScope.

Please let us know by 1:00 pm Central on Monday whether, in light of the above proposal, TQ Delta will agree to stay the ED Texas case as to the six overlapping patents. If TQ Delta will not agree, we will move forward with filing the motion as opposed.

Thanks.

Andy

Hi Ed,

How about 12 pm or 1 pm Central time on Tuesday?

Thanks.

Andrew,

TQ Delta is generally available on Tuesday for the meet-and-confer. Please propose a time, and we'll confirm whether that works for us.

Thanks

Counsel,

CommScope intends to file a motion to stay the case as to the six patents

overlapping with the *2Wire* case in Delaware. Please let us know your availability tomorrow or Wednesday to meet and confer before we file the motion.

Thanks.

Andy
